MÆNSA STATERA glacial forge

Designer: Bucurenciu I. Mircea

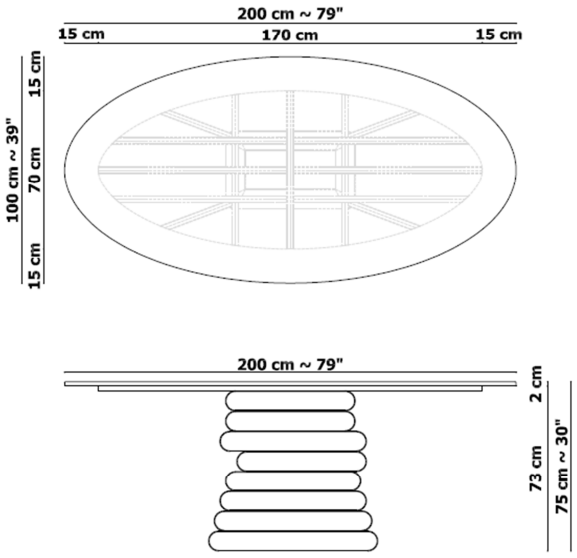

MÆNSA STATERA glacial forge is a high quality product. The design of the table is spectacular by the metal structure that expresses a state of balance rendered by the power of gravity and by the elliptical shape of the top. The top is made of Ametista granite that originates from Brazil and is special due to the intense red to purple rhodolite crystals that creates a special pattern.

The harmonious shape of this type of table and sophisticated colors creates an elegant atmosphere full of dynamism.
